# REPORT OF S. S. SCHOOL COMMITTEE.

The Superintending School Committee respectfully submits the following report of the Public Schools of Peterborough, for the school year ending March 1, 1886:

Whole amount of money raised and appropriated by the town for school purposes, \$3,068.01; apportioned to the several districts on the same basis as last year. The above sum includes \$1000 appropriated for the use of the High School.

Whole number of different pupils attending the public schools during the year, exclusive of those attending the High School, 380.

The accompanying statistical table, showing what branches of study have been taught, record of attendance, wages per month, &c., contains about all the information which it is necessary for the Superintending Committee to furnish to the inhabitants of the town.

No changes have been made in the management of the schools during the year. Your Committee has aimed to secure, so far as practicable, a uniform system of instruction in all the public schools. Under the recent district system, where the teachers are engaged by prudential committees elected by each district, it has not been possible to accomplish this, only partially. Those who have taught for several consecutive years in the public schools of this town, and those who have had the advantage of special training for the work, are the ones who have done the best work. Nearly all the teachers have discharged the duties of their office with commendable zeal and fidelity.

Considering the amount of money raised and appropriated for school purposes, the fact that some of the smaller districts have had less than one hundred dollars with which to maintain schools for the year, the result is highly satisfactory. With fewer schools and an appropriation not less than that of preceding years, we may hope to see a marked improvement in the future, in the amount and quality of the work.

There have been a great many instances of tardiness in some of the schools, as will be seen in the statistical tables—altogether too many. Many pupils have been absent so large a part of the time that it was absolutely impossible for them to accomplish a great deal in their school work.

In District No. 1, the same conditions exist which for several years past have rendered it impossible for any teacher, however energetic and efficient, to fully meet the demands of the public. The teacher of the Primary department is asked to receive and teach more pupils than can be seated in the room; while at least one-third as many more of school age are kept away because there is no room for them. This has occasioned the transfer of pupils from a lower to a higher grade before they were qualified to be advanced, making it impossible to maintain any system of grading in the village schools. Steps should be at once taken to provide a place and teacher for a part of the pupils in the primary grade.

No changes have been made in the text books during the year. A few schools have been slow in introducing those which were adopted last year and previous years, thus increasing the number of classes.

Your Committee has visited every school in town during the year, and with one exception has attended the closing examinations of each term. These examinations have, as a general thing, been genuine and thorough—not exhibitions of what the pupils had been taught to say and to do on special occasions.

While your Committee has opinions of his own in regard to the location and management of the schools under the town system, he does not consider it pertinent to obtrude them upon the attention of his successors. He will be glad, however, to offer any suggestions, if called upon to do so, which may serve to promote the interests of education in the town of Peterborough.

Respectfully submitted,

W. H. WALBRIDGE, S. S. Committee.

# HIGH SCHOOL.

The first or spring term of the High School was taught by Albert D. Smith. The fall and winter terms were taught by Ai S. Anuis. Whole number of pupils for the spring term, thirty. Fall term, forty-two. Winter term, thirty-two.

The frequent change of teachers during the past four years, which in every instance save one has been unavoidable, together with other causes, has served to diminish in some measure the usefulness of the school. It is impossible to establish any systematic, thorough and permanent method of work, discipline, habits of study and general management under such circumstances. Consequently the standard of scholarship and deportment, has for several years been too low.

Mr. Annis entered upon the duties of his office with a high ideal of what a High School should be and do. He endeavored in the first place to establish order, to govern and discipline the pupils. Loose and slipshod methods were discountenanced, and, if persisted in, prohibited. The pupils were required to do more and better work than they had been accustomed to do. The lessons assigned for the day must be learned on that day and not postponed to the following day. The pupils soon began to form habits of study to which they had been strangers. It is true that some fault was found with the teacher for giving too long lessons. Fears were entertained that the health of the pupils would suffer from too severe and close application to study. But it is the opinion of your Committee that all such fears were groundless, and that at the close of the second term's work—which surpassed that of the first term in amount and quality—the pupils are better prepared to continue their studies than at the beginning of the term. They have learned how to study. They have mastered certain principles which lie at the foundation of the branches of study which they are pursuing, and are prepared to go forward.

Mr. Annis is entirely devoted to his work; is fond of it, and takes delight in the progress of his pupils. His conscientious fidelity to the trusts committed to his keeping has had a marked influence on the school.

If any have failed to reap the full benefits of two terms of exceptionally good work on the part of the teacher, a glance at the record of attendance will indicate one of the causes at least, and no doubt will remain in the mind of any one as to the names of those who have not made good progress. The record for the last term shows that there were 311 half-day absences, 108 instances of tardiness, and 80 dismissals. Not only an unusual, but an unnecessary number, as it is frankly confessed by the scholars that they are sure that 53 of the absences were unnecessary, and that they could have been in school had they so desired.

What this school needs most of all is the hearty co-operation of the parents and citizens with the teacher in his efforts to promote the highest interests of the pupils and put the school on a better foundation. Criticisms are always in order, and are mutually profitable, if they are intelligent and proceed from a right motive. But garrulous fault-finding, and captious criticisms based on hearsay, and not from any actual knowledge of the conditions and requirements of the school, are not calculated to do any good. No one is benefited thereby, and the usefulness of both the teacher and the pupils is impaired.

Give to the High School your earnest support, strengthen the teacher by encouraging him in every worthy effort to promote the welfare of the pupils and enhance the value of the school to the people of this community. By frequent visits and personal observation, judge of the character of the work that is being done, the obstacles to be overcome, and the needs of the school.

W. H. WALBRIDGE,
High School Committee.

Thirty volumes have been placed in the library by the trustees of the James Smith Fund, and the remaining 177 volumes have been added by the committee by purchase and by donation. Besides these bound volumes, a considerable number of pamphlets have been added.

A file of the *Peterboro' Transcript*, from May 1, 1873, to December 31, 1884—twelve volumes of the paper bound in four—has been placed in the library, and it is hoped that whoever manages the library in future years will continue the series. No more valuable addition could be made for the purpose of preserving local historical matter for those who are to come after us. The present committee have for years been trying to secure a consecutive file of the paper for the library as far back as possible, but have not completed it farther back than May, 1873. Has any citizen of the town an old file of the paper which he will donate for binding?

After most of the additions had been made last summer, Bulletin No. 1 was prepared and printed, containing all additions made since the catalogue was published.

The following have been added since the Bulletin was pri	inted:

#### SELECTMEN'S REPORT.

We herewith respectfully submit a report of the financial transactions and standing of all the departments having disbursements made by our orders on the Treasurer.

Upon petitions we have laid out a highway from the end of Vine street to the Catholic church, and also one from Prospect street to Union street. We assessed a school house tax in District No. 1. towards building a new school house, but the Prudential Committee declined to build a house, and the Legislature abolished school districts, and we then abated said tax. We have made several prosecutions in behalf of the town to enforce the liquor law, and have paid over to the treasurer as fines \$135, and these prosecutions have been no expense to the town. We have expended beyond the appropriation \$341.44 in the account for highways. This has been done by building a concrete sidewalk from Mr. Winn's to the Village Cemetery, and making the new highways which were laid out, and repairing the damage to the highways by the heavy showers in the summer, all combined. We have expended \$182.65 in excess of appropriations on the bridge and railings account; this was caused by rebuilding a culvert that was washed out on the mountain road, and a drain pipe to carry the water from Union street to the river. We paid out \$431.56 more than the appropriation on the account for land damage, the Commissioners having increased the award made by the Selectmen; this balance also includes the land damage on Vine street. We paid out \$570.91 in excess of the appropriation on the account for water pipes and hydrants. These bills were all contracted by the committee chosen by the town to put in said hydrants, and approved by them.

A. FULLER, Overseer of the Poor.

We, the undersigned, auditors of accounts for the town of Peterborough, hereby certify that we have examined the foregoing accounts of the Selectmen, Town Liquor Agents (Accounts and Reports of S. W. Nichols, and E. H. Smith), Town Library Committee, Overseer of the Poor, and Town Treasurer, and find them correctly cast and properly vouched.

 $\left. \begin{array}{l} \text{M. L. MORRISON,} \\ \text{J. Q. ADAMS,} \end{array} \right\} \text{Auditors.}$ 

Peterborough, N. H., March 3, 1886.

# State of New Hampshire.

To the Inhabitants of the Town of Peterborough, qualified to vote in Town Affairs.

You are hereby notified to meet at the Town Hall in said town, on the second Tuesday of March next, at nine of the clock in the forenoon, to act upon the following subjects:

1st. To choose a moderator to preside in said meeting.

2nd. To choose all necessary Town Officers and Agents for the year ensuing.

3rd. To raise such sums of money as may be necessary for the support of schools; for the maintenance of the poor; for laying out and repairing highways, and building and repairing bridges; and for other necessary charges arising within the town, and appropriate the same.

4th. To raise and appropriate such sums of money as may be necessary for the support of the fire department, public library, street lamps, and Grand Army on memorial day.

5th To hear the reports of agents, auditors, committees or officers heretofore chosen, and pass any vote relating thereto.

6th. To see if the town will vote to instruct the Selectmen to enforce the law relating to the sale of intoxicating liquors, and raise and appropriate money for the same, or take any action in relation to the same.

7th. To see if the town will vote to build a stone arched bridge across Contoocook river near the North Factory, and build a stone arched bridge across the mill race leading from Charles Wilder's planing mill, and raise and appropriate therefor the sum of thirty-six hundred dollars, or take any other action relative to building said bridges.

8th. To see if the town will vote to raise and appropriate the sum of five hundred seventy dollars and ninety-one cents to pay the amount expended above the appropriation for Water Pipes and Hydrants.

9th. To see if the town will vote to raise and appropriate the sum of four hundred thirty one dollars and fifty-one cents to pay the amount expended above the appropriation for land damage for highways.

10th. To see what sum of money the town will vote to raise and appropriate to permanently improve or repair the road beyond Nutting's mills leading to Jaffrey.

11th. To see if the town will vote to construct a new gallery in the town hall building and make other improvements therein; and to alter any portion of the exterior of said building, and raise and appropriate money for the same.

12th. To see what action the town will take in regard to providing sewers for the accommodation of the public in any of the streets of the center village, and raise and appropriate money for the same.

13th. To see if the town will vote to instruct the Selectmen to lay out new highways, and raise and appropriate money for the same.

14th. To take the sense of the qualified voters on the question: Is it expedient that a convention be called to revise the constitution.

Given under our hands and seal this 20th day of February, A. D. 1886.

W. S. KYES. C. W. HUNTER, EZRA M. SMITH, Peterborough.
